Note by the secretariat

For some time now, it has been clear that the issue of the *Timber Bulletin* dealing with prices of forest products was in need of a radical overhaul as regards choice of series, with the aim of deleting series which are no longer published or relevant and replacing them with regularly published, commercially important series. There will be no gap in those series which are being retained.

This overhaul is now completed. The secretariat would welcome comments on the new selection of price series, especially proposals for new series for inclusion in future issues.

****

Note du secrétariat

Depuis quelque temps déjà, il était apparu que le numéro du B*ulletin du Bois* traitant des prix des produits forestiers devait être profondément remanié au niveau du choix des séries, afin de supprimer les séries qui ne sont plus soit disponibles, soit pertinentes et de les remplacer par d'autres publiées régulièrement et importantes du point de vue commercial. Il n'y aura pas d'interruption dans les séries qui sont maintenues.

Cette révision est maintenant terminée. Le secrétariat souhaiterait recevoir des commentaires concernant la nouvelle sélection des séries de prix, notamment des propositions pour de nouvelles séries à inclure dans les numéros qui seront publiées à l'avenir.

SOME FACTS ABOUT THE TIMBER COMMITTEE

The Timber Committee is a principal subsidiary body of the ECE (UN Economic Commission for Europe) based in Geneva. It constitutes a forum for cooperation and consultation between member countries on forestry, forest industry and forest product matters. All countries of Europe; the former USSR; United States of America, Canada and Israel are members of the ECE and participate in its work.

The ECE Timber Committee shall, within the context of sustainable development, provide member countries with the information and services needed for policy- and decision-making regarding their forest and forest industry sector ("the sector"), including the trade and use of forest products and, when appropriate, formulate recommendations addressed to member Governments and interested organizations. To this end, it shall:

1. With the active participation of member countries, undertake short-, medium- and long-term analyses of developments in, and having an impact on, the sector, including those offering possibilities for the facilitation of international trade and for enhancing the protection of the environment;

2. In support of these analyses, collect, store and disseminate statistics relating to the sector, and carry out activities to improve their quality and comparability;

3. Provide the framework for cooperation e.g. by organizing seminars, workshops and *ad hoc* meetings and setting up time-limited *ad hoc* groups, for the exchange of economic, environmental and technical information between governments and other institutions of member countries that is needed for the development and implementation of policies leading to the sustainable development of the sector and to the protection of the environment in their respective countries;

4. Carry out tasks identified by the UN-ECE or the Timber Committee as being of priority, including the facilitation of subregional cooperation and activities in support of the economies in transition of central and eastern Europe and of the countries of the region that are developing from an economic point of view;

5. It should also keep under review its structure and priorities and cooperate with other international and intergovernmental organizations active in the sector, and in particular with the FAO (Food and Agriculture Organisation) and its European Forestry Commission and with the ILO (International Labour Organisation), in order to ensure complimentarily and to avoid duplication, thereby optimizing the use of resources.

CE QU'IL FAUT SAVOIR SUR LE COMITE DU BOIS

Le Comité du bois de la CEE est l'un des principaux organes subsidiaires de la Commission économique pour l'Europe des Nations Unies. Etabli à Genève, il est un organe de coopération entre les pays membres dans le domaine de la foresterie, des industries forestières et des produits forestiers. Tous les pays d'Europe, l'ancienne URSS, le Canada, les Etats Unis et Israël sont membres de la CEE et participent à ses travaux.

Dans le contexte d'un développement durable, le Comité du bois de la CEE fournit aux pays membres les informations et services dont ils ont besoin pour leurs orientations et leurs décisions dans le domaine de la foresterie et du secteur de l'industrie forestière, notamment le commerce et l'utilisation des produits forestiers ("le secteur") et, s'il y a lieu, formule des recommandations à l'intention des gouvernements des pays membres et des organisations intéressées. A cette fin, le Comité :

1. Avec la participation active des pays membres, procède à des analyses à court, moyen et long terme des tendances du secteur et des tendances qui l'influencent, y compris celles qui permettent de faciliter le commerce international et d'améliorer la protection de l'environnement;

2. Recueille et diffuse des statistiques sur le secteur à l'appui de ces analyses, et oeuvre en vue d'améliorer leur qualité et leur comparabilité;

3. Sert de cadre à la coopération, par exemple en organisant des séminaires, des ateliers et des réunions spéciales et en constituant des groupes spéciaux de durée limitée, pour l'échange d'informations économiques, écologiques et techniques entre gouvernements et autres organismes des pays membres, informations nécessaires à l'élaboration et à l'application de leurs politiques visant au développement durable du secteur et à la protection de l'environnement;

4. Mène des activités considérées comme prioritaires par la Commission ou le Comité, notamment la facilitation de la coopération sous-régionale et des activités propres à venir en aide aux économies en transition d'Europe centrale et d'Europe orientale et aux pays de la région qui se développent du point de vue économique;

5. Passe constamment en revue sa structure et ses priorités et coopère avec d'autres organisations internationales et intergouvernementales oeuvrant dans ce secteur et en particulier la FAO et sa Commission européenne des forêts et l'OIT afin d'assurer la complémentarité des tâches et d'éviter tout chevauchement des activités, de manière à optimiser l'emploi des ressources.
